

Richmond Future Land Use Workshops
Help us Map a Vision for Richmond's Future!

October 21 and November 17, 2015, 6:30–8:00 p.m.

Marcia Buker Elementary School, High Street

Snacks and Beverages Provided

What is *your* vision for the future of Richmond?

- Where do we want stores and businesses?
- Where do we want residential development?
- How do we preserve our farms, rural areas, and natural resources?

Participants at the first workshop will be armed with maps, and together, we will draw a future land use map. The Comprehensive Plan Committee will take your ideas and come back to the second workshop with a draft map and some further recommendations for discussion.

We will be assisted in this process by *Good Group Decisions*, a professional facilitation firm from Brunswick.

These are FREE workshops and you do not have to attend both! The future of our town is ours to shape so we hope to see you all there.

Questions: Contact Victoria Boundy, Director of Community & Business Development, 207-737-4305 x331.
